

THE VALUES OF CERAMIC

Its surface marks appear to be those of a dirt track, with its shiniest parts stemming from the passing of life and time. Terra becomes the perfect combination of an 'ancient' touch and the charm of experimentation by focusing on the nuances that can provide this project with a highly contemporary connotation and strong appeal.

On the one hand, warm, darkened, deep colours linked to tradition, like ochre and red; on the other we find colder contrasting colours like silver and a highly original nuance like Prussian blue.

Full-body coloured porcelain stoneware, Terra can be found on the market in the formats for both cladding and flooring purposes and is versatile in its usage and style.
